RESISTANT AND LONG-LASTING

Robust by nature, the STELLAR-M6e was designed to endure intensive use during its 5-year warranty, battery included⁽¹⁾. It's so robust that it can do without a case and still withstand everyday use. And it's all thanks to a meticulous design, as illustrated by the intermediate shell, which is screwed on rather than glued. And, cherry on the cake, to further reduce the STELLAR-M6e's environmental footprint, recycled materials were incorporated into its design, such as its 100% recycled aluminium chassis, for example.

- IP68, dust-tight, liquid-tight
- Drop-resistant (1.5 m)
- MIL-STD-810H
- Ultra-hardened screen protection glass
- Wide temperature range (-20 °C to +60 °C)
- USB connection protected by 1 waterproof cap

COMMUNICATE WITH A FREE MIND

Whether you're at home or at work on Wi-Fi or outdoors on 5G, the STELLAR-M6e gives you quality communications and fast data access. You can switch from personal to professional use effortlessly. And when it comes to security, the STELLAR-M6e has you covered thanks to its dedicated element for securing sensitive data. Ideal for protecting your passwords, banking and biometric information.

ELEGANT AND PRACTICAL

Sleek and elegant, the STELLAR-M6e is so practical you'll forget you're wearing it all day long. Its ergonomic design makes it intuitive and helps you be productive. You only need one hand to navigate the screen, while the other remains free to write, do DIY, or carry a parcel. When it comes to acoustics, the STELLAR-M6e once again stands out with its excellent sound quality and innovative Artificial Intelligence (AI) noise reduction technology⁽⁴⁾. In a noisy street, your conversations become crystal clear for your correspondent. Quite simply, the more you use it, the more the STELLAR-M6e becomes.

- 4 GB RAM, 64 GB flash memory (expandable with memory card)
- 35 h talk time, 400 h standby time
- 6.1" screen, 80% of the surface accessible with the thumb
- 2 slots for a neck strap
- Non-slip grip
- Powerful speaker (93 dBA)
- AI noise reduction (-60 dB)⁽⁴⁾
- 2 quickly identifiable action buttons (texture, position)
- Wet Touch, Gloves Touch technology

2 slots for a neck strap

X-LINK™

Discreet, the X-LINK™⁽⁵⁾ technology deserves all your attention. With it, the STELLAR-M6e can be easily charged, or fixed in a car, on a machine or even on a bike. It can withstand a wrenching force of up to 16 kg with X-BLOCKER, an accessory sold separately. Ideal for preventing accidental falls in delicate environments.

(1) During the guarantee period, CROSSCALL will cover the replacement of a faulty battery if both of the following cumulative conditions are satisfied: the battery's capacity is 70% or below, and the number of full charging cycles is 850 or lower. The good practices for battery use recommended by CROSSCALL can be found on the website www.crosscall.com. (2) Pursuant to Article L111-3 of the French Consumer Code, the duration of availability for spare parts that are essential to the use of a new product is ten (10) years from when the product is sold. Your phone and its accessories included in the box are guaranteed against any fault or malfunction which may develop due to their design or manufacture, or from a material defect, under normal conditions of use, and according to our general terms & conditions of sale and the applicable sales guarantee agreement, available for consultation at www.crosscall.com > Support > Guarantee. (3) SAR: Head: 0.89 W/kg / Body: 0.60 W/kg, Limbs: 1.80 W/kg. The local specific absorption rate (SAR) quantifies the user's exposure to electromagnetic waves from the equipment in question. The maximum SAR authorised is 2 W/kg for the head and torso, and 4 W/kg for the arms and legs. It is recommended that you use a listening device allowing for the head's exposure to radio-electrical emissions from mobile phones. (4) AI-based Noise Reduction Technology Fraunhofer upHear.
